

Jeremy Amankwah

Looking for summer internships!

EXPERIENCE

SMC Club, Location — 11th Grade Leader

June 2020 - PRESENT

Head of the 11th grade class SMC club at my school, that prepares incoming freshmen for their first year in boarding school.

Bronx Community College, New York — Instructor

December 2017 - August 2019

Taught a numerous amount of kids how to fly drones, make music, and stay in shape.

Bronx Community College, New York — Internship

May 2018 - July 2018

I took part in a geospatial class for three months. I learned how to use satellites to create pictures of many things and keep track of what is in the world, for example the most and least dirtiest places in the world.

EDUCATION

Church Farm School, Pennsylvania

September 2018 - May 2022

Currently taking advanced classes, AP US History and Honors Pre-Calc.

PROJECTS

School Campus — Detail

In my intro to engineering class we used drones to take photos of my school campus from multiple angles and used those photos in a program called mesh mixer where we created a 3D model. From there we used a program called Prusa Slicer that allowed us to print these 3D models and display them on a canvas created by a picture taken by a satellite.
